

## Technical Bulletin

Ref: **TB- 15001**

Product: INOmax DS<sub>IR</sub>® / INOblender®

Affected parts: INOmax DS<sub>IR</sub> / INOblender

Subject: **Device Label – UDI Bar Code Addition**

Issue date: **February 2022**

Priority: Low

Classification: Information for Distribution

Due to new standards required by the FDA, a Unique Device Identifier (UDI) barcode will be added to INOmax DS<sub>IR</sub> and INOblender device labels. The addition of this bar code does not require the user to change their equipment management processes; however, the look of the labels will change slightly.

The components of the labels are as follows:

REF: Stock number

S/N: Serial number

UDI Components:

(01) Device identifier

(21) Serial number

The table below displays examples (final size and detail may vary slightly) of the current device labels and the new UDI device labels (which include the UDI bar code):

Device	Current Device Label	New UDI Device Label
INOmax DS <sub>IR</sub>		
INOblender
