

## Technical Bulletin

Ref: **TB-20006-ENG**

**Issue date: February 2022**

**Product:** INOmax DS<sub>IR</sub><sup>®</sup>, INOmax DS<sub>IR</sub><sup>®</sup> Plus, INOmax DS<sub>IR</sub><sup>®</sup> Plus MRI,  
INOflo DS, INOvent, Investigational Blinded NO Delivery System,  
Investigational NO Delivery System for Human Use Only,  
Investigational NO Delivery System for Animal Use Only.

**Priority:** Low

**Affected parts:** Accessories

**Classification:** Information for Distribution

**Subject:** Part Number Changes for Accessories

---

The purpose of this Technical Bulletin is to inform the user of part number changes for accessories relating to the above listed products.

The following part numbers have been changed as a consequence of implementing US Unique Device Identification (UDI) labeling requirements. This is a labeling change only with no accessory impact.

UDI information will appear on each accessory label for manufacturers tracking purposes.

**IMPORTANT: Please continue to use your existing inventory of accessories until exhausted. There is no set expiration date for your existing accessory inventory. When ordering new accessories, please refer to the tables listed below:**

**Note:** Not all accessories listed below are required in all regions.

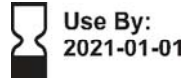

**Cautions:**

- Each accessory must be used prior to the date of expiry that has been stated on the label.
- If past its expiration date, the accessory, with the exception of the Injector Module, Injector Module Cable Assembly, and MR Injector Module Cable Assembly below, should be disposed of as per hospital guidelines.
- For the Injector Module, Injector Module Cable Assembly, and MR Injector Module Cable Assembly, follow the recommended cleaning procedures outlined in the Device IFU if used beyond the Use By date on the packaging. The Injector Module, Injector Module Cable Assembly, and MR Injector Module Cable Assembly do not expire.

If the Injector Module, Injector Module Cable Assembly, and MR Injector Module Cable Assembly are not in original packaging, ensure item(s) are cleaned per the instructions in the Device IFU prior to use.

TB-20006-ENG Updated 2022  
Ref. 21787, rev. 02

The 'Use By' date will appear on each accessory label in the following format:

*Example ONLY*

### Accessories

Description	Previous Part Number	New Part Number
